

VIDEO: HOW TO EASILY EXPORT FOOTAGE TO ANY COMPUTER CHEAT SHEET

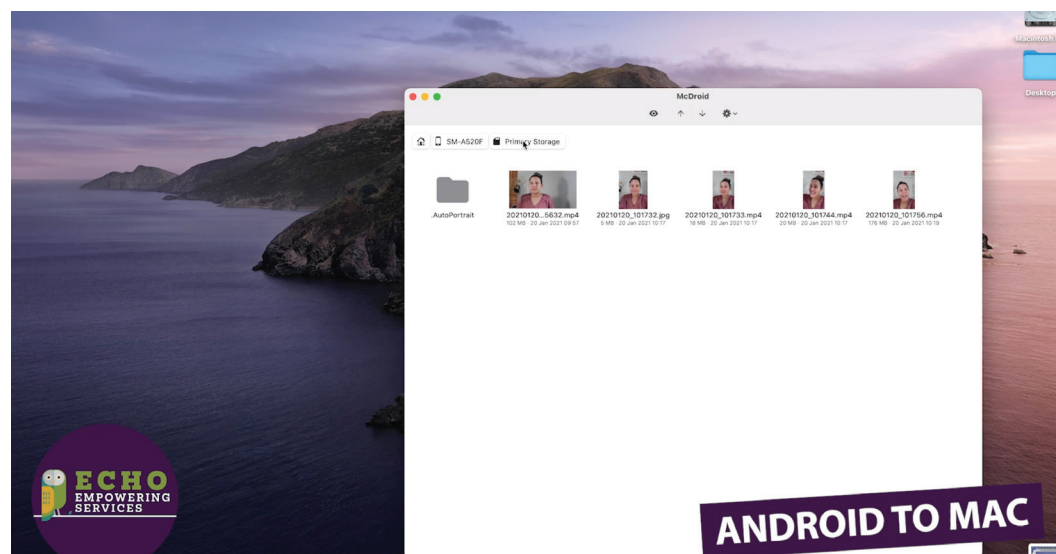

Android to MAC

These are completely different devices, therefore to successfully transfer files from your Android phone to MAC computer, you'll need to download and use a free application:

- Download **McDroid** to your Apple MAC Computer and onto your Android Device.
- After the app is successfully installed, connect your Android device to your MAC through a cable.
- Unlock your Android phone and open the McDroid app on your MAC and follow the prompts.

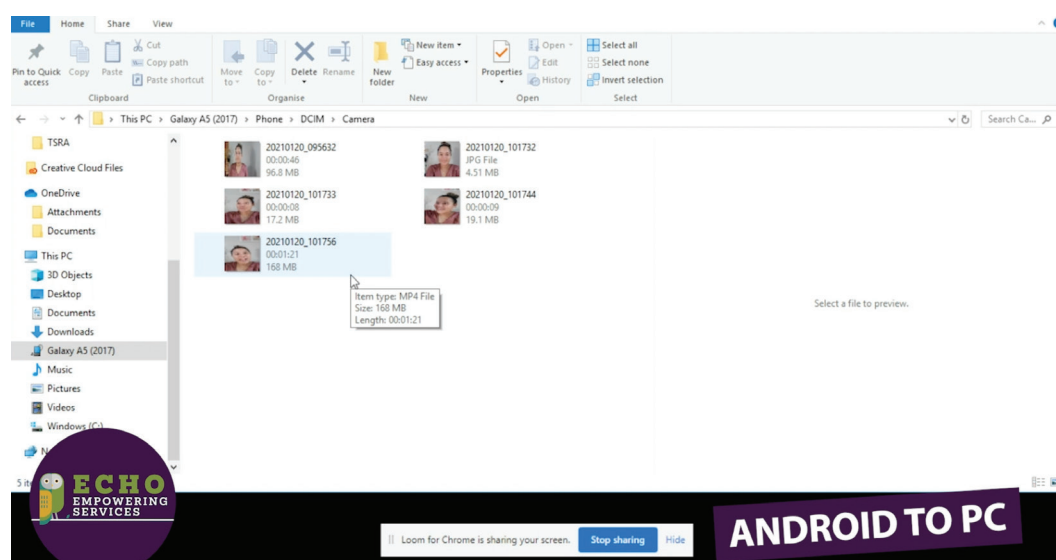

McDroid Application: <https://apps.apple.com/us/app/mcdroid/id1488201769?mt=12>

Android to PC

Transferring files from Android to PC is relatively easy. All you need to do is:

- Connect your Android phone to your PC through a cable.
- Unlock your phone and allow your PC to access to your phone (this should be a pop up prompt).
- Open Explorer on your PC and look for your phone name in the hard drive section.
- Open your phone and click through until you find your footage.
- You can save footage to your PC

iPhone/iPad to MAC

iPhones/Ipads and MAC computers are both Apple, so transferring files is very easy and you can do so by using the Airdrop functionality.

- First ensure that airdrop is turned on on both your iPhone/iPad and your MAC.
- Open your iPhone and find the footage you wish to transfer.
- Select the footage and then select the send button.
- Your MAC should appear as an Airdrop recipient. Select it.
- Wait for your files to complete the transfer.
- Check your MAC for your files. They may be saved to Downloads or you can find them in your Recents folder.

iPhone/iPad to PC

Transferring files from iPhone/iPad to PC is relatively easy. All you need to do is:

- Connect your iPhone or iPad to your PC through a cable.
- Unlock your phone and allow your PC to access to your phone (this should be a pop up prompt).
- Open Explorer on your PC and look for your phone name in the hard drive section.
- Open your phone and click through until you find your footage.
- You can save footage to your PC
